# Hoffman Farm Seeds PRICE LIST February 8, 1944

If you order less than a half-bushel of any one kind of seed, please figure its cost at the rate shown in the price "per pound" column.  
Blank space after name of seed indicates no supply on hand.

## ALFALFA . . . . . RED CLOVER ALSIKE . . . . . MAMMOTH

At the present time there is a very severe shortage of good alfalfa and clover seeds. Our present stocks may be exhausted any day. If able to obtain additional supplies of these seeds that meet Hoffman quality standards we will continue to fill orders as received.

During such shortages, there is no telling just where renewed stocks can be located . . . freight costs on them are apt to vary greatly. So the following quotations have been figured to cover distant freight costs. If seeds can be secured from areas where lower freight rates prevail, such saving (in full compliance with OPA regulations) will be rebated to you.

	(60 lbs. per bu.)	Per Lb.	Per Bu.

## Time to Order is NOW!

Early demand for all kinds of Seeds has been much heavier than normal. Supplies of many seeds were smaller than usual, to start with. With the urgent call for increased farm products, heavy seed demands will continue.

Nothing can be gained this year by waiting to buy Seeds. Some kinds are near exhaustion now. Lower prices are not expected . . . rather, upward trends seem certain.

Today's prices at Hoffman's are good for use at once. But without guarantee for any future date. . . . War conditions make everything uncertain. . . . Please have this confidence in Hoffman — On later orders, higher prices will not be charged before they become absolutely necessary. New Price Lists supplied any time.

Depend on Hoffman Seeds this year! They will help you grow paying crops!
